IF Practice Questions #2

1. A password is considered **strong** if:
   - It is **at least 8 characters long**, AND
   - It contains **either a digit OR a special character** (! @ # $ %)

   Ask the user for a password and display if it's a:
   "Strong password" or **"Weak password"**

2. In order to tryout for the basketball team students must have **80% or higher average AND 90% or higher attendance**, **OR** a teacher recommendation ("yes"/"no") overrides academic requirements.

   Ask for average, attendance %, and teacher recommendation.

   Output whether they **can try out for the basketball team**.

   3. A hotel will accept a booking only if:
- The user is **18 or older**, AND
- The stay length is **between 1 and 30 days**, AND
- **Either** a credit card **or** a valid ID is provided.

   Ask for age, number of days, and credit card/ID info. Display **"Booking accepted"** or **"Booking denied."**
